6. A physical security survey was conducted at offices of the National Archives in Washington, D. C., in order to accredit the area as a Sensitive Compartmented Information (SCI) facility. The office in question will serve as a storage point for official papers of National Security Advisor Zbigniew Brzezinski. Reportedly, Dr. Brzezinski will use material that he has accumulated during his term in office in the preparation of his personal memoirs. At the conclusion of this process the material will be transferred for permanent storage to the library which will be established in Atlanta, Georgia, for President Carter's papers. (U)

8. Two representatives of Information Systems Security Group (ISSG) attended the Federal ADP Users Group monthly meeting held in Washington, D. C., on 8 January 1981. Mr. William Neugent of Systems Development Corporation spoke on "Security Evaluation Methods for 'Certification.'" He outlined approaches to security evaluation and testing, commented on audit methodologies and risk assessments. (U)
